***Allowable Subject Matter***

1. Claims 1-16 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The prior arts of record do not anticipate or render obvious to one skilled in the art a transfective liquid crystal display comprising various elements as claimed, more specifically transfective electrodes of aluminum compound.
4. To perfect priority, applicant filed an English translation of the priority document on 06/18/03. Thus, US 2002/0145689 is not considered as a valid prior art since the filing date (06/06/01) of the priority document antedates the earliest effective filing date (07/20/01) of US 2002/0145689. Further, all of the prior art references alone or in combination fail to teach or suggest the claimed invention specially the transfective electrodes being made of aluminum compound.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
